

# SHOWCASE

REAL WOOCOMMERCE STORES SUBMITTED BY THEIR MAKERS

## Absolut Art

**Absolut Art** sells limited-edition prints by emerging and established artists from around the world.

Building on Absolut Vodka’s thirty year involvement with contemporary art, it’s now an online community **connecting artists with art lovers**.

Without the intimidation of traditional galleries or institutions, **buying art** has never been easier or more fun.

*“Our ambition is to democratize access to contemporary art so that it becomes as much a part of peoples’ lives as music, fashion, and food.”*  
– Absolut Art

To achieve their vision of democratizing the acquirement of art, Absolut Art needed to offer easy and accessible shipping and delivery. WooCommerce experts, **Angry Creative**, ensured that all transport administration is collected and handled in one place using Unifaun. This allows the site administrators to easily print shipping bills in bulk, with customers receiving automated order updates.

Signed, limited-edition artworks are also offered in an interactive way, allowing customers to view both the signature and edition in advance. The edition number is automatically increased at every purchase, communicating with Absolut Arts’ image bank. Signed and framed prints are all printed on the highest quality archival paper, and are delivered to customers with a certificate of authenticity.

Internationally renowned and recognized artists as well as **unknown local artists** are represented in the collection. Since artist selection is important, landing pages highlighting each one have been created. This is also an important part of the vision to contribute to cultural diversity, plurality, and equality.
