

Bujutsu Martial Arts Centre

Martial Arts, Karate & Dojo Management Software

Clubworx partners with businesses offering state of the art yoga, martial arts, and dojo management software perfect for helping you run your gym or studio to meet your scheduling needs. With customisable features Clubworx will help you automate the day-to-day business requirements of running your gym or fitness studio. We spoke Bujutsu Martial Arts Centre to find out why their instructors have chosen Clubworx as their preferred software provider!.

Please tell us a bit about your business. What makes you different!

We are the largest martial arts facility in Australia. We run 3 floor at once plus a gym. We run fitness classes plus a large variety of martial arts classes, such as Karate, BJJ, MMA, Muay Thai, and various weapon systems.

Where are you located?

South West Sydney, Smeaton Grange NSW (Australia)

Have you used other software before?

Yes, it was a custom made system by a student of mine who was a computer scientist.

What made you look for new member management Software?

My old system was not web based, and the support guy was slow to respond to technical issues.

What made you decide to switch to Clubworx?

It enabled me to run a gym and 3 floors of various fitness classes and martial arts classes all at once.

The ability to manage grades/ranks and hours of training for my martial arts students. But also to be able to manage how many times they were attending a week, this includes my fitness and gym members as well.

What features/functionality were you looking for your business?

The ability to manage grades/ranks and hours of training for my martial arts students. But also to be able to manage how many times they were attending a week, this includes my fitness and gym members as well.

The app upgrade we had done that allows our students to see their current rank and hours of training for their gradings is an essential feature of this app.

What is your favourite Clubworx feature?

The app that allows students to see their hours of training and ranks. Also the ability to quickly sms or email everyone.

Would you recommend this software to others?

I would recommend this app to others. In fact I have and they are using it and loving it.

How has using Clubworx made your life easier?

The grading features along with the rank and hours of training features have save me a significant amount of time.

Also being able to quickly communicate with all members take a lot of stress away.

Recently, we had a heat wave and I had to close for one day. It took me 60 seconds to SMS all of our clients advising the of an extreme heat closure.
