

BURROW GLOBAL

Burrow Global, LLC is a full service engineering, procurement, construction, and facility services firm with specialties in process automation, industrial buildings, plant commissioning and start-up.

Our premium quality, high value services and commitment to safety combined with our broad industry experience and comprehensive expertise make us the global provider of choice for many major companies.

Burrow Global Construction, LLC, has 30+ year tradition of high quality and safely executed projects by providing construction management, EPC and turnaround execution to industrial clients throughout the southern United States.

Burrow Global Construction includes:

- » Procurement
- » Fabrication
- » Construction
- » EPC Projects
- » Industrial Buildings
- » Turnaround Management & Execution
- » Preparations for Operations

Burrow Global uses ProjectTools Document Management Software to centralize project documents, effectively manage revision workflows, and facilitate timely, secure document distribution. Burrow also uses ProjectTools Procurement Software and Cost Control Software to ensure construction teams have the proper equipment at the right time for the right prices.
