TIC Guide website

The Panamanian Chamber of Information Technology, Innovation, and Telecommunications CAPATEC is an initiative that makes use of the leading companies in the technology and telecommunications sector to promote the development of the information, telecommunications and, technology industry (TIC). It also seeks to integrate hardware manufacturing companies and outsourcing companies.

On this occasion [we developeda platform] (https://www.rootstack.com/es/servicios/desarrollo-de-software-web) called [TIC Guide] (http://guiatic.capatec.org.pa /) that digitally replicates the directory of companies with technological solutions in Panama, this site has different settings for registration, which can have access to the most known fields and more information of the newly registered companies, said registry has a process of two validations before being approved within the platform and have a publication on the website.

It has filters by type and technology. Used for a fast and quick searches.

Client

CAPAtec

Project information

Case highlight
