

# CNL Securities

The CNL Securities website is a trusted source of information for investment options.

CNL Securities has been helping advisors meet their clients' financial goals for more than 30 years with alternative investment solutions. The mobile responsive website serves as a critical educational tool for the company and features a robust document sharing platform for portfolio offerings.

Solodev CMS platform makes the site easy to update by CNL site administrators and includes built-in functionality such as a date-based homepage slider and other features that allow for quick updates to timely information.
