

**Realized 11% Savings by
Digitizing Procurement
Processes for a INR 10000+ Cr
Construction Materials Company**

Overview

With INR 297 billion market capitalization, the client is a leading manufacturer of construction materials. The client has the lowest carbon footprint in the global construction material industry due to its sustainable thought-process, innovation, and co-creation.

The client acts as a catalyst for India's infrastructural growth and intends to foray business into new geographies. While the client's procurement operations were tactically-focused and effective, the client sought to reduce the process's complexity and optimize the overall costs. Additionally, the client intended to expand its supplier network and close the existing gaps with a next-generation procurement solution.
