

## Educational Institution in USA

### Introduction

This case study of Auburn University is based on a November 2017 survey of SQL Safe Backup customers by TechValidate, a 3rd-party research service.

“SQL Safe Backup provides us with time saved during backups and restores, and the ability to look at a single console for all errors and issues.”

“With SQL Safe Backup, we have the ability to restore quickly from point-in-time backup.”

### Challenges

The business challenges that led the profiled organization to evaluate and ultimately select SQL Safe Backup:

- Were unable to manage an entire backup environment via a centralized console
- Had difficulty detecting and resolving backup problems
- Had too much time and money spent on managing backup and recovery

#### Organization Profile

Organization:  
**Auburn University**

Industry:  
**Educational Institution**

### Use Case

The key features and functionalities of SQL Safe Backup that the surveyed organization uses: Has 100 to 499 SQL Server databases in their environment.

#### About SQL Safe Backup

SQL Safe Backup saves money by reducing database backup time by up to 50% over native backups and reducing backup disk space by up to 95%. It also enables complete hands-free automated backup of entire SQL Server infrastructures and ensures compliance with the backup and recovery policies of organizations.
