

Am Law 100 Firm Achieves 89% Recall and 99.5% Precision using DISCO Auto Review

**22,812**

docs per hour

**89%**

recall

**99.5%**

precision

An Am Law 100 firm partnered with DISCO to implement Auto Review, a cutting-edge generative AI solution designed to streamline document review while maintaining high accuracy. The case team worked closely with DISCO AI consultants throughout the process, reviewing samples and providing feedback to hone the tool for their specific needs.

The results were impressive. Once prompts were optimized, Auto Review completed **96,413 documents in just 4 hours and 9 minutes, achieving 89% recall and 99.5% precision** – at speeds of **22,812 documents per hour**.

The team was thrilled with the results – and their partnership with DISCO. "I loved it! The platform is very intuitive, and the team did a great job of listening to our feedback and steering the process in the right direction," said an attorney on the case. "We wanted to be heavily involved because of the sensitive nature of the documents, and DISCO provided us with the flexibility and control we needed to manage the document review process in the best way for us and our client."

DISCO provided us with the flexibility and control we needed to manage the document review process in the best way for us and our client.
