

## FRANKLIN CONSTRUCTION, INC. - CHICO, CA

Over the last four decades, **Franklin Construction, Inc.** of Chico, CA has become a leader in civil construction throughout Northern California. A SharpeSoft client since 2006, the company provides general contracting and subcontractor services on both public and private works projects, with an emphasis on clearing and demolition, earth moving and grading, asphalt paving, and chip sealing.

The company provides commercial, agricultural and industrial services to school districts, single and multi-family residential developers, and for various public works agencies ranging from small towns to state and federal agencies. In addition, their three rock quarries, asphalt plant, and recycling operation provide all types of aggregate materials and disposal services to five neighboring north-state counties.

No matter the size of scope, Franklin Construction strives to ensure that every project is completed safely, on time and within budget, while providing competitive prices and outstanding customer service.

Thanks Franklin, for making SharpeSoft a part of your success.
