# Technology Company Moves to Mobile Scheduling

FX INNOVATION is an innovative company in the information technology sector. They work with clients to ensure that IT is creating value for their business.

*"Best scheduling app out there!"*  
– Patrick Hardy, Director

After using When I Work at a previous job, Patrick wanted to use it for his team at FXInnovation. Since implementing the app his team has improved communication, he saves 3 hours every week, and because it's mobile every one has access to the schedule no matter where they are.
