Retail

A Fortune 500 retailer with thousands of global locations standardized its response procedures with automated workflows and secure documentation, enabling privacy and legal teams to collaborate confidently and reduce compliance gaps tied to manual processes.

Business Outcomes

- Unified workflows across business units for consistency
- Secured communications to protect attorney-client privilege
- Reduced audit and regulatory risk with automated documentation

“BreachRx unites all teams involved in incident response, ensuring better coordination, faster decision-making, and legally defensible documentation.”
