**Increased the ideal candidate pool and decreased time-to-hire by 55%.**

## Global Healthcare Group

### About
A global healthcare group operating in 23 countries with over 65,000 employees and more than 1,100 medical facilities, living residences and home care services.

### The Problem
Filling talent pools with qualified candidates and being able to quickly find the candidates that best match with open positions.

## Our Solution

- A custom career shapers platform allowing potential candidates to answer questions about themselves, link past job experiences and certification to intelligently match them to the open positions that best fit their skills.

- Increasing the ideal candidate pool, decreasing hiring time significantly and increasing employee retention over the first 6 months of employment.
