

Inversiones en Seguros website

Inversiones en Seguros is an insurance company created with the vision to financial protection, they are characterized by the creative and innovative tendencies that managed to locate them on the top 10 of the most important insurance brokers in Panama.

Using Drupal 7, our developers created a website based on a theme previously purchased by the client. We did [SEO](#) improvements so the website was visible when searched and increase traffic levels.

The website was also improved for clients so their navigation experience was simpler and friendly. It's a completely self-manageable website with multi-language support, social media feed, open to customer requests and claims, and we offer a [hosting](#) service for them on our servers.

Client

Grupo Inverseguros
