

Face ID Activation

Banking moves fast online. Keeping up with changes in technology, regulation and the economic environment can be demanding.

This short and succinct video teaches customers how to set up Face ID functionality on the award-winning HSBCnet mobile app in an engaging and easy-to-digest manner.

HSBCnet develops powerful, intuitive online tools to help manage complex banking needs, giving customers and consumers a clear picture of their global banking in one place, wherever and whenever they want it. The HSBCnet Mobile app with Face ID is now available for iPhone X. To aid the user through Face ID activation, a video was created detailing a step by step guide. Short and succinct, the video ensures the guide is easy to absorb and enjoyable to watch.

We do not charge for the app. Your mobile network operator may charge you for access. Charges may vary if accessing the app abroad. You are responsible for these charges.
