Hey Cookie! makes frozen cookie dough balls that we deliver to your door in selected cities (Johannesburg & Pretoria) in South Africa. There are currently 5 flavours but we are in constant product development and will keep introducing new flavours every few weeks.

The current flavours are choc chip, oat & raisin, reverse choc chip, confetti cookie and a delicious cranberry & pistachio short. We are encouraging our customers to pop a few in the oven at a time and eat them fresh because that is when they are at their yummiest!

Each product is made by hand and with a careful selection of ingredients and thoroughly tested recipes. All the deliciousness of a freshly baked cookie! None of the mess!
