IK and SM Newey Transport Ltd – Northland, NZ

Ian and Shelley Newey have been with MyTrucking for just four months, but Ian is already singing its praises.

"It was great to have the no obligation trial and get a feel for it. I can see why they do it, because it sells itself. I was sold on it pretty much straight away and could see the efficiencies we as a team, and business, could gain from it."

Already, their dispatcher is able to dispatch trucks remotely from a tablet in his home. "We're doing 75 odd loads a day and he's the point of contact for 30 drivers and 10 logging crews. To be able to take a portion of his job, take it remotely and put it into an app system has made everyone's job easier."

Accurately capturing data from drivers is a huge plus and Ian says the efficiency gains are huge. "The workload in the office has dropped. Sign off at the end of the month is quick. It's remarkable how it's changed the office and admin staff's lives, and taken the pressure off."

"MyTrucking has proved itself. I really like that it's a kiwi company too, I think that's important. They have made it simple, and simple for drivers, which is the key."
