

Jobs in the borough – London Jobs Website Design

The screenshot shows a web application for job searching. At the top, there's a navigation bar with 'JOBS In The Borough' and links for 'JOBS', 'TRAINING & APPRENTICESHIPS', 'ACCOUNT', and a 'LOGIN' button. Below this is a sub-navigation bar with 'BUSINESS IN THE BOROUGH', 'JOBS IN THE BOROUGH', and 'SALES IN THE BOROUGH'. The main content area features a map of London with several red location pins. Below the map is a search bar with 'Keywords', 'Location', and a 'SEARCH' button. Underneath the search bar are filters for job types: FREELANCE, FULL TIME, INTERNSHIP, PART TIME, and TEMPORARY. A 'Showing all Jobs' section follows, with an 'RSS' link and 'jobs by indeed'. Two job listings are visible: 'Weekend/Part Time Sales and Reservations Executive' at 'The Medieval Banquet' in London, and 'Team Assistant' at 'BBC' in London. Each listing has a green progress bar.

Project Description

Bespoke built Job advertising website.
