retrain.ai

Accelerated training and upskilling by 27%, helping to improve employee retention and productivity.

Insurance Group

About Insurance
A large insurance group in Israel with 6,000 employees.

The Problem
They are facing several challenges such as war for talent, high attrition and lack of career path for the employees. The talent acquisition process is very long and inefficient.

Our Solution

- Mapping the hard and soft skills of the employees.

- Identifying and connecting the right and diverse talent to the right positions.

- Connecting employees to career pathways and the right training opportunities.
