Streamlining operations for dynamic police department

The Jourdanton Police Department has served the Jourdanton, Texas community since November 18, 1974.

*"The app can do so much more than just scheduling— there's the employee time clock, keeping track of overtime hours, and the ability to have multiple schedules based on the specific job requirements such as operations in other locations."
– Santos Gonzales , Lieutenant*

Prior to using When I Work Santos had to manage the employee schedules and all the paperwork that came along with it. Since implementing When I Work he saves 10 hours a week on scheduling, his team loves how easy the app is to use, and he can stop maintaining all that paperwork.
