

## LOVELAND EXCAVATING & PAVING - FAIRFIELD, OH

Since 1996, SharpeSoft client **Loveland Excavating & Paving** has made nurturing long-term client relationships a key part of their business model, so it is no surprise that over 80 percent of their work comes from repeat customers. Matthew J. Brennan started the Fairfield, Oh, company with the goal of providing quality site development at an affordable, competitive price.

 <b>LOVELAND</b> Excavating & Paving, Inc.	260 Osborne Drive, Fairfield, OH 45014 (513) 965-6600	
		
<b>Site Development</b> We take an Integrated Site Development (ISD) approach to our client's project needs. We offer a variety of site development services that when combined, bring a total solution to our client's site development needs.	<b>Asphalt Paving</b> What began in 2006 as a simple service requested by our customers, our Asphalt Paving Division has become one of Southwest Ohio's leading asphalt installation companies.	<b>General Excavating</b> Our General Excavating Services (GES) are designed to meet our client's needs for solutions to common problems. Our GES staff handles everything from light concrete work to utility connections.

As the company grew, they added asphalt work to their repertoire and quickly became one of the most sought after asphalt paving companies in southwest Ohio. In addition, clients also have come to rely on them for quality excavating services, including general grading, curb replacement, erosion control, and utility work.
