

Customer Success Stories

Learn how **TruckLogics** helped a customer to understand how vital a multi-user environment can be and how role-based accounts can make their job easier

Challenge:

Managing a large fleet on your own is not an easy task. One of our customers was struggling to organize fleet operations and share information among their staff.

TruckLogics' Solution:

Our Multi-User Access feature helped them to:

- ⊗ Get assistance from their staff by creating accounts with different user roles.
- ⊗ Create user roles like Dispatchers and Office Managers.
- ⊗ Each user is provided with access specific to their user roles.
- ⊗ Collaborate on fleet operations and share information from one another to work together.

Result:

The **multi user feature** was a great solution for staff to work together in managing fleet operations efficiently.

The Multi-User Access feature in TruckLogics was simple, easy to use, and unbelievably helpful for managing the staff and our fleet operations effectively.

- Austin, **Fleet Owner**
