- James Joe, **Leased Operator** ”

Find out how TruckLogics helped this leased operator generate a Year-End Tax report seamlessly

Challenge:

Before using **TruckLogics**, a leased operator always struggled filing their income taxes. They could not link their business income and expenses categories with the categories mentioned in **Schedule C (Form 1040)**.

TruckLogic's Solution:

With **TruckLogics**, they found an optimal solution for:

- ⊗ Adding customized income and expense categories.
- ⊗ Efficiently mapping income and expense categories to the appropriate Schedule C categories.
- ⊗ Generating the Year-End Tax report accurately.
- ⊗ Filing **Profit & Loss reports** quickly with **Year-End Tax report** data.

Result:

The **Year-End Tax report** provided the leased operator with accurate income and expense data required to file **Schedule C**. With the information on the report including **Part I - Income, Part II - Expenses, and Part V - Other Expenses**, they were able to complete the form **Schedule C (Form 1040), Profit or Loss from Business (Sole Proprietorship)** to report income or loss from a business operated.
