

## Life Sciences Case Study

Gaining competitive advantage by deploying compliant AI technology.

A prominent medical device company wanted to deploy an AI app for personalized medicine adherence. Due to compliance issues, their legal team blocked it from going live. Thanks to Enkrypt AI's compliance solution, they launched this cutting-edge technology in record time.

"By using Enkrypt AI's security and compliance solution, we gained a competitive advantage by quickly deploying a critical technology advancement."

VP, AI Deployment  
Medical Device Company
