

## NELSON STARK - CINCINNATI, OH

SharpeSoft client **Nelson Stark** came together in 1993 when Nelson Excavating and Stark Plumbing merged to form a brand new company with 75 years of combined experience in plumbing and heavy construction. Over the last quarter century, the Cincinnati, OH company has grown to become a top provider of commercial and industrial plumbing and heavy site development services throughout Ohio, Kentucky and Indiana. They offer complete design/build services and have the capability to install all sizes of storm, sanitary, water and natural gas systems.

Having their feet planted in both plumbing and heavy construction allows them to tackle projects from the ground up; performing all of the excavation, site utility and underground plumbing under one umbrella. This has allowed them to grow from a humble one-man residential plumbing company to a major commercial plumbing, site utility and excavation contractor with a workforce of more than 220 and a fleet of more than 200 pieces of heavy equipment. Thanks, Nelson Stark for choosing SharpeSoft!
