

NW CONSTRUCTION - BOZEMAN, MT

At NW Construction, knowledge, experience, integrity and teamwork have been the foundation for a solid record of success and customer satisfaction since 2013. In fact, in just five years the Bozeman, MT company has emerged as a leading provider of heavy civil construction services throughout the country. Their work includes dams and hydroelectric projects, concrete work, piping of all sizes, site preparation, underground utilities, slurry walls, demolition, marine and environmental work, aggregate processing, and more.

Company founders, Neil VanAmburg and Neil Worden based their business model on hiring only the very best people and by emphasizing teamwork and collaboration. By treating each team member as a valued asset and stakeholder, the company is able to tackle jobs of any size, scope, and level of difficulty, and deliver them on time, within budget, and with the highest quality.

Thanks, NW Construction for choosing SharpeSoft!
