

Splendid Webs

NorthPsych

<http://www.northpsych.com.au/>

NorthPsych is a family focused Psychological services practice based in North Sydney, Australia. We designed and built a new website for them, migrating some data from their old site and setting up a new hosting service. After the site went live we worked on SEO and White Hat Google rankings optimisation and they are now seeing some first page results.

Splendid Webs continue to support NorthPsych's website, as well as monitor the site's performance and search result rankings.
