

Client testimonials

Overdimensional Transport Services Ltd – Auckland, NZ

Our team have been using MyTrucking across our fleet of 4 pilot vehicles and truck over the last month and are loving it! We have tailored it to suit the products we offer and using it on the go has negated the need for collating paperwork.

Having the platform connect directly to our accounts software Xero has streamlined our admin resulting in an estimated saving of at least 20 admin hours over the month. The team have easily adapted to the mobile app and paperless jobs, no need to carry docket books anymore!

Thanks to Jesse at TKO Contracting Ltd for the recommendation and Nat at MyTrucking for persevering with us to help create a better work life balance!
