

## R&R HORN - CHICO, CA

With just a single backhoe, Richard Horn began working as a general engineering contractor in 1992. Since then, **R&R Horn**, a SharpeSoft Client since 2002, has grown to more than 40 employees with an equipment fleet of 50 units.

The image shows a business card for R&R Horn. The top left features a circular logo with 'GENERAL CONTRACTORS' around the top, 'R&R' in the center, and 'HORN' and 'CHICO, CALIFORNIA' at the bottom. To the right of the logo, the tagline 'Building from the ground up!' is written in a script font. Below the tagline, the address '13504 Skypark Industrial Ave., Chico, CA 95973' and phone number '530-342-8655' are listed. The main body of the card is a photograph of a yellow backhoe loader with the 'R&R' logo on its side, parked on a dirt construction site. At the bottom of the card, there are six service categories arranged in two rows: 'Value Engineering', 'Construction Management', 'General Engineering' in the top row, and 'General Contracting', 'Lease-Leaseback Partners', 'Emergency Services' in the bottom row.

GENERAL CONTRACTORS

*Building from the ground up!*

13504 Skypark Industrial Ave., Chico, CA 95973 530-342-8655

Value Engineering    Construction Management    General Engineering  
General Contracting    Lease-Leaseback Partners    Emergency Services

Current and past contracts include school, roadway, residential, and landfill construction, public utilities, and site development. Because the company is able to rapidly deploy its labor and equipment resources, city and county agencies have come to depend upon R&R Horn for emergency storm repair services, snow removal, and habitat mitigation. Thanks R&R Horn for allowing SharpeSoft to be part of your success!
