- Specialised Sectors** We focus on sports and leisure sectors.
- We Work With...** Corporates, Governments, Regulators & Sports Bodies.
- Integrity + Passion** The best outcome is born from clarity, integrity and passion.

What does Regulus

Regulus Partners

International Consultancy

Regulus Partners needed to overhaul their outdated IT infrastructure, to support growth and internationalisation in Australasia. First we performed an audit and we gave unbiased advice on various solutions. Google Workspace was selected and our team reviewed Salesforce which the forward-thinking Maybo team had already implemented. This gave the opportunity to integrate Salesforce into Google Workspace and reap the benefits of 100% cloud for all their systems.

We then set about a wholesale Google Workspace migration and training with enhanced Salesforce integration for users based in Europe and United Arab Emirates.

"We have been delighted to work with Steegle to setup our cloud systems and build integrated class-leading productivity tools to allow our partners to collaborate."

Francesca Leyland, Partner, Regulus Partners.
