Ross Bros Transport Ltd – Ashburton, NZ

When I first heard about the MyTrucking program I thought, no it wouldn't be suitable for our small family rural bulk cartage transport. How wrong I was!!! Natalie and Sara came to visit me and talked me through how the system worked, I had a light bulb moment and thought maybe this could work for us. Just over a year ago we started using the MyTrucking program, once everything is set up it is very user friendly.

I never have a weight docket go missing, as our drivers take a photo of it as soon as they are in receipt of it and send it through so I can see it on the computer.

I am almost in disbelief of how my father wrote everything out manually when it came to invoicing time.

I have fully recommend using the MyTrucking system and when you need to ring the MyTrucking staff for advice they are always very friendly and helpful.

Jarrold Ross
