

SANCO PIPELINE - LOS GATOS, CA

Over the last 60 years SharpeSoft client, **Sanco Pipelines, Inc.** has established itself as a leader in underground construction throughout northern and central California.

The Los Gatos-based company was founded in 1956 by former World War II Navy pilot, David Schrader, and aided by his wife, Jean, the couple steered the company through 30 years of success and steady growth.

In 1970, son David joined the company as superintendent. The three continued to run the business for another 15 years before David and Jean retired and Michael ascended to company president.

Today Sanco employs a crew of more than 150, performing work throughout northern and central California. They specialize in the installation of sanitary sewer, storm drains, domestic and reclaimed water systems, and underground fire lines.

Thanks, Sanco for allowing SharpeSoft to be part of your success!
