

Case Study

CLIENT:	SECOND LARGEST BANK HOLDING COMPANY IN THE US
DEPARTMENT:	GLOBAL LIQUIDITY RISK MANAGEMENT
Challenge	A flexible Business Intelligence platform to meet growing regulatory needs
	Allow Risk Officers to self-query the Liquidity Data Warehouse
	Replace TIBCO spotfire with a solution that achieves a higher adoption rate
Solution	Deploy Clear Analytics globally to Liquid Risk Officers and Management
	Incorporate governance, security and centralization to report preparation
	Users can share their findings without emailing spreadsheets
	Numbers rendered in excel can be traced directly back to the source
	Spreadsheets are stored and versioned centrally
Results	100% adoption throughout the Liquidity Risk business
	Risk Officers can 'self-query' across hundreds and millions of rows
	Regulatory reports can be dynamically updated on demand
	Measurable time savings due to zero wait time for report development
