

Client testimonials

Shanahans Livestock Transport – Victoria and Queensland, AUS

Shanahans has been with MyTrucking for about 12 months. "We were doing things the old way, diaries, everything written down. It was time to move with the times of technology and streamline the business into a digital format that was easy to use for everyone.

"My role in the business has always been a supporting one, supporting the other managers and the owner. What MyTrucking has done is give us greater transparency – everyone is able to see when a job has been booked, the costings, where it's at.

"With repetitive jobs, we are able to see the client history and make sure we are charging fairly and consistently.

"The support is excellent. There's always someone online or at the end of the phone if you get stuck. It's a good tool for business, especially our business."
