REAL WOOCOMMERCE STORES SUBMITTED BY THEIR MAKERS

## Shark UK

Shark UK is a manufacturer of **innovative cleaning appliances** such as vacuum cleaners, steam mops, and housecare products.

Shark is recognized worldwide as “the market leader and pioneer of steam-cleaning technology”. Its wildly popular **Shark® Steam Mop** replaces the need for harsh chemicals, using water alone for its Steam Blast Technology.

Shark is one of several housecare brands developed by Euro-Pro, tracing its roots in home appliances back more than a century. Euro-Pro also **markets products** under the Bravetti®, Ninja®, and Euro-Pro® brand names. Originating in Europe, the company moved operations to Canada before finally settling in Newton, MA.

Since 2016 the sites have taken over half a million orders and continue to grow exponentially.

*“The sites feature deep API integration across all brand websites & call centers around the world. There are also dozens of custom integrations: from taking monthly installment payments for orders, to registering an after-sale customer across all brand sites for easy order management – no matter where they came from.”*
