

SKILL CORPS

Find and retain top talent.

CHALLENGE

Skill Corps is a workforce solutions business specializing in skilled trades. A massive amount of temporary positions weren't filled because they couldn't quickly match open opportunities to available talent. In the past, Skill Corps had to call prospective workers to know if someone was available at a certain time and location and to confirm the person had the right skills. This manual process is cumbersome and many jobs went unfilled because it was too difficult to find said worker.

SOLUTION

They decided that a digital solution can easily augment their workforce as workload demand fluctuates. TempBuddy provides a direct link between a client's job request and the people that are most compatible for it.

65%

Using TempBuddy, on average 65% of placements are filled within an hour.
