

A boutique law firm **increases their productivity & profitability** with Smokeball

30 % increase
in productivity

**One comprehensive
system**

**100% of
deadlines hit**

SBR Law Group is a boutique firm with big-law credentials. Their wide range of practice areas and deep expertise needed a similarly stellar solution to support their workload. Their previous legal software created barriers in seamless processes, requiring staff to jump across several programs.

Within a week of switching to **Smokeball**, senior paralegal Maureen was fluent in the software. “My efficiency improved immediately by at least 30%,” she says. Smokeball transformed SBR Law Group’s workflows by eliminating the need to re-enter client information across documents. Staff save emails and attachments to a matter in a click and can convert and send documents just as quickly. With built-in messaging for internal communication and customizable templates, Smokeball saves tremendous time while improving efficiency.

Increased efficiency and accuracy through a unified platform

- **Smokeball’s automatic time tracking** increases profitability by accurately capturing billable time.
- **Intuitive legal calendaring** gives a comprehensive view of tasks and events so there’s no missed meetings or deadlines.
- **Exceptional training** offers multiple methods of learning to fit every user’s preference—from live sessions with Smokeball experts to self-guided modules.

SBR Law Group

Area of Law: Business, Civil
Litigation and Real Estate

Firm size: 11 employees

Location: Brookfield,
Wisconsin

Smokeball increased my productivity by at least 30%! I highly recommend it to any law firm looking to consolidate numerous software programs into one comprehensive system. Moving between Word, Outlook, Smokeball, and interoffice correspondence is seamless.

Maureen Radke, senior
paralegal
