

## Case Studies and Success Stories

*"The Steegle team put us on a sure footing for our Google digital transformation, making sure our objectives could be delivered successfully and on time"*

**Rob Gethan-Smith, IT Director**

### Southbank Centre

#### World-leading arts organisation

The Steegle team helped plan a migration to Google Workspace for over 400 users. We first audited their legacy systems, introduced and demoed Google Workspace and worked directly with Google in Ireland to help the Southbank Centre determine whether Google Workspace was the right solution for them. Once the decision was made the Steegle team assisted The Southbank Centre IT team to migrate the users to the cloud, including their mail, calendars, contacts and documents.
