## Mobile scheduling software improves team

Fire Fighters love using the When I Work app.

*"The app is great. Easy to use and our employees love having their schedule at their fingertips! "*

*– Randy Harless , Lieutenant*

Scheduling was getting too overwhelming for Randy and his team. After doing some research, he decided to go with When I Work and hasn't looked back since. His team loves how easy to use the app is and Randy loves that he can keep a pulse on the organization at the same time.
