### VISIT WEBSITE

<https://sweet-as.co.uk/>

Sweet As sell delicious cakes from treats such as brownies and delicious Freak Shakes to elegant, bespoke wedding and celebration cakes. The website allows users to craft their own cake using the "Cake Creator" where they can select the style, flavour, size and more to create the perfect tasty treat for any occasion.

Checking out is easy with the step by step checkout process. Users are able to select multiple delivery methods and destinations; functionality not seen on any competitor websites! The PayPal Pro payment gateway also means that customers can use their preferred payment method from credit/debit card to PayPal transfer.

And then there's The Cake Club; basic or premium membership granting users access to exclusive recipes, events and special offers depending on whether they are a free or paid member.
