

Operations oversight as clear as water with SAP Business One

Cairo-based TAM Environmental Services is committed to engineering environmental solutions geared at providing pure water through state-of-the-art reverse osmosis and MBR technologies. When the company set out to eliminate inefficiencies and update processes through the incorporation of industry best practices, they reached out to SAP Business One and the implementation specialists at Bbeter Seidor. Today, TAM enjoys full operations oversight, accurate data, time and cost-savings and is optimally positioned to meet the increasing demand for safe drinking water both in Egypt and abroad.

Before: Challenges and Opportunities

- Seeking to incorporate industry best practices
- Striving to enhance oversight and control for operations and processes
