

Web design customer: Thamesgate Group

**Project Brief:** We were contacted by Nick who needed to meet an urgent deadline. He had just 3 days to get a brand new website built, and he was a little worried that what he wanted would not be possible in the time he had left to get it finished.

**Customers Video Review / Testimonial Transcript:** "My name is Nick Watkins, im the managing director of Thamesgate group. I approached Joe on Monday, and said to him that I needed a website done very very quickly. I wanted something quite basic, and what I got within just 3 days is probably the most amazing website that I have ever seen! It is an amazing product, and the service we got has been second to none, we gave a very very basic brief, but the overall website we got was exactly what I had in my head, amazing. I couldn't recommend him highly enough! "
