

# The Friedkin Group positions itself for growth with UKG and Align HCM

## Client spotlight

- 5,900 employees
- Business consortium
- Houston, TX

### Client situation

- TFG was looking to improve their HCM functionality and position themselves for future growth with a best-in-class solution
- The goal was to implement a unified HCM solution for reduced manual effort, process and technology unification, and organizational growth.

### Solution

- Align started with fact-finding and analysis workshops to assess TFG's current landscape
- The team integrated UKG Pro to TFG's existing UKG Dimensions solution
- The system was also integrated with a 3rd party recruiting and benefits provider

### Results

- TFG is live and processing payroll with their new UKG Pro solution
- They are also live with onboarding, which is connected to their applicant tracking solution
- The efficiencies gained with the fully integrated HCM suite means TFG is ready to scale
