The **Craft Can Directory** are a premium craft beverage marketplace with a mission to bring the very best of British, European, and international craft beer to customers.

Over recent years, **craft beer** production has increased significantly, with nearly 1,500 microbreweries in the UK alone producing varied, premium quality beers. To this end, The Craft Can Directory was launched in 2015 by a group of beer lovers in the heart of Herefordshire, with the idea to make freshly canned beer available to customers within the same week of canning at a price that couldn't be beaten.

*“For me, it’s about doing things in a different and better way”*  
– **Andy Hughes, Managing Director & Owner**

The CCD team also believe that cans are not only a more environmentally friendly alternative to bottled beer, but also more convenient for everyone involved.

You will find exclusive beers on the Craft Can Directory that aren't available to buy anywhere else. The company have additionally launched a beer **membership** club for customers who want to try a box of six, 12, or 24 delicious new beers each month.

There are additional plans to expand The Craft Can Directory into a multiple vendor marketplace for the finest canned craft beer and, ultimately, the best canned products in the world in order to reach a wider audience.
