

Web design customer: The Garden Landscaping Company Ltd

Project Brief: We were called by Richard from The Garden Landscaping Company Ltd who has seen our little electric Hedgehog advertising van. Richard needed a website for his company, he didn't have one at all yet, so we helped him to register his company domain name and open the hosting account, and we built a website for him following his brief.

Customers Video Review / Testimonial Transcript: "Hi I'm Richard from the Garden Landscaping Company, Joseph very kindly set up our first website. Which is nearly up and running, it's great I'm very pleased with it. And he has been very helpful in showing us how we can add to it and work on it as well. Which is good."
