The Good Batch is one of Brooklyn's most celebrated artisanal bakeries. RayGun partnered with the Good Batch to create a shopping destination, powered by WordPress and WooCommerce, for their one-of-a-kind cake and cookie creations.

Their fully custom eCommerce shop supports a wide variety of products, including a customizable cake feature that allows users to design their own cakes online for pick up at The Good Batch bakery.

Customers can also purchase a cookie subscription to keep their cookie jars filled all year round, woo!
