**Two Chimps Coffee** provide no-nonsense, freshly roasted, and ethically sourced coffee tailored for your enjoyment around the clock.

Lovingly roasted by hand in Rutland, UK, on a daily basis, these single origin **speciality coffees** are all full of character and bursting with flavour. By roasting in small batches, Two Chimps make sure that your coffee is still at its freshest when it arrives in your mailbox.

Beans are sourced from all over the world, with roasts carefully and expertly crafted for each part of your day: for instance, morning coffees have a big kick to get you up and at 'em. All-day coffees provide subtle hints of chocolate, whilst **evening options** bring a mellow, familiar, comforting taste of the Marcala region in Honduras. Where each coffee is from, along with how it has been processed and roasted, gives each of these coffees their own unique flavours in the cup.

Coffee fanatics are able to select either whole bean or several grind sizes, including pour-over, aeropress, or espresso machine. Not sure which option to pick? Don't panic – **answer a few simple questions** and you'll be pointed in the right direction – in real-time!

If you just can't get enough, a weekly, biweekly, or monthly **coffee subscription** will ensure that you never have to run out of your daily caffeine fix. Best of all, **delivery** is free via first-class mail.

The site and product packaging boast bold and creative design, echoing the company's fun and playful sense of humor and love for coffee. After all, what's more fun and playful than two chimps?

*"To sum Herd up in one word is easy: amazing. Their team built our site using WordPress and WooCommerce from the ground up, and now they look after our online marketing. What these guys don't know about web design, WooCommerce, and WordPress isn't worth knowing."*

*– Andy, Two Chimps Coffee*

Whether you're new to the world of coffee, a seasoned aficionado, or looking for a **wholesale coffee supplier** for your business, Two Chimps have you covered. Awesome coffee is now just a few clicks away, courtesy of Rutland's finest.
