AIR-CONDITIONING, MECHANICAL AND ELECTRICAL
ASSET MAINTENANCE AND MANAGEMENT

BRANDS

University of Adelaide

The University of Adelaide caters for 26,000 students across three core campuses. Spotless is responsible for the provision of maintenance services at these sites as well as the University's commercial buildings within the Adelaide CBD. In addition to the plumbing and electrical maintenance we have provided since 2002, we are working closely with the University to upgrade all switchboards and electrical services across the campuses.
