

Adoption Bridge

We connect you with the untapped love waiting to be adopted in real life! Adoption Bridge is an iOS app that aims to connect adoptive parents, children and birth parents to complete their family and form lasting relationships.

An app that finds the beloved children you have always wanted to adopt

Adoption Bridge works to bridge the gap between the families and children wanting to be adopted. The users can examine the details of each child and bring home their most loved ones.

A wide range of features that help you talk with interested families

Adoption Bridge lets you hear the story of each child on board, talk with different profiles, and even fund a child's adoption to find him/her the right home.

A iOS app completing the family of adoptive children and parents

Adoption Bridge, as the name suggests, has the purpose of landing the emotional needs and financial constraints of adoption on the same page. Adoptive parents can now avail the power of crowdfunding and make the dream of completing their family come true.
