Case Study: Kempston Challenger Academy
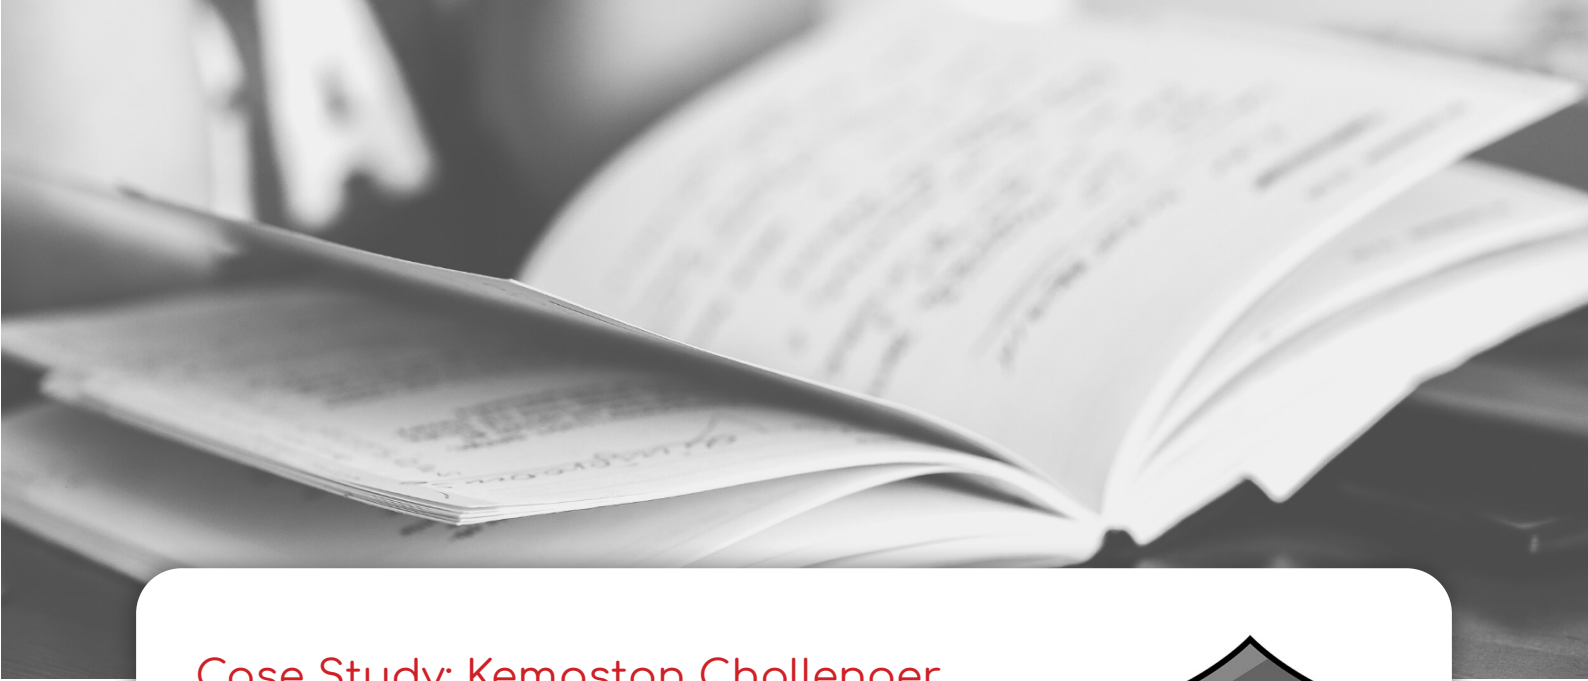

Kempston Challenger Academy is a co-educational upper school and specialist college for students aged 13-18. Based in Kempston in Bedfordshire they have a proud reputation built upon "Finding Talent in Everyone."

Case Summary

Name: Kempston Challenger Academy
Location: Bedfordshire
Sector: Education

Overview
ASL's managed print service team were invited to coordinate an extensive print audit. A qualitative analysis was conducted.

Solution
- ASL Technology

Benefits
- Extensive management information reports providing data on all print output from the device and users
- A proactive service software solution to automate toner, meter readings and service
- Improved technology solutions implemented that also delivered desired cost savings

Overview

ASL's managed print service (MPS) team were invited to coordinate an extensive print audit of Kempston Challenger Academy's sites where existing volumes, deployment and spend were mapped. A qualitative analysis was also conducted to help continue to bespoke a scoping document for KCA's needs.

Solution

ASL's MPS team built a multi-vendor technology platform which would introduce state of the art technology as well as systems to enable cost reduction. This solution delivered a combination of high volume colour printers and mono/colour MFD's from multiple manufacturers and Papercut software, which delivered the "follow me print" solution required by the college.

The deployment was handled by ASL's own project management team which organised meetings with key staff to ensure the project was delivered within the committed timescales and budget.

Benefits

The software provides extensive management information reports to provide data on the all print output from the device and users. A proactive service software solution has also been deployed to automate toner, meter readings and service.

The improved technology solutions that have been implemented has also delivered desired cost savings across the adademy.

""After looking at the market for best value and service, ASL were our chosen provider. With ASL's professional approach, we were able to measure all aspects of our document workflow and then rely on their expertise to propose the correct solution for our needs. I can confidently recommend ASL as a solid and reliable supplier"

Tim Copping, Kempston Challenger Academy

We Recommend What's Best For Your Business, Not Ours

ASL is one of the largest established managed-office services suppliers in the UK. With 9 sites across England we are local, whilst providing national coverage, with the ability to be agile in our service offering to react to your changing needs.

We work with 7000+ customers, providing them with excellent service levels that ensure they don't have to worry about downtime affecting their business. We worry about it, so you don't have to.

Whether you wish to leverage your previous investments and mix new technology with legacy IT or install new infrastructure from a single or multiple vendor, we can help. From your first machine to your first fleet, we are your trusted partner.
