## The Brand

Potter, designer, and author Jonathan Adler launched his namesake brand after leaving his day job to pursue his first love: pottery. In 1993, Barneys bought his collection of ceramics, and five years later, he opened his first store in Soho.

Today, Jonathan Adler is a design company with retail locations worldwide, a thriving ecommerce site, a full slate of residential and commercial projects, and a global wholesale business. They strive to create luxe and livable interiors that are seriously designed but don't take themselves too seriously.
